

*Talk on Thursday, 9. Dec. 2021*

*Start: 16:15 (till 17.30)*

*Online Stream:* <https://uni-salzburg.webex.com/uni-salzburg-de/j.php?MTID=m51f6086b7787c5100a735f75d1bd781f>

*The talk will be presented in English*

## Touch, movement, body, and cognition: The new Cognitive Psychology Group introduces itself

Team Heed

Department of Psychology<sup>+</sup>

Dr. Christian Seegelke, Dr. Xaver Fuchs, Dr. Boukje Habets & Prof. Dr. Tobias Heed

The Cognitive Psychology Group has recently joined the department and will give an overview over its research in two presentations on Dec. 9 and Jan 13. The group entertains two labs: the *Reach & Touch lab* with a focus on sensorimotor processing and tactile-motor integration in adults; and the *B hoch 3 kids lab*, with a focus on sensorimotor development.

On **Dec. 9**, **Tobias Heed** will give a bird's eye overview over the group's interests, aims, and recent research. **Christian Seegelke** will then present work on sensorimotor transformation, motor planning, and effector specificity.

On **Jan 13**, **Xaver Fuchs** will present work on tactile perception, body and pain processing, and **Boukje Habets** will present the group's kids lab and our developmental work.
