Information about the doctoral programme

(Version 2022)

Approval of the disposition:

The disposition must be presented before a review board (departmental colloquium, seminar for doctoral candidates). This requires the member of the doctoral committee of your field of study to be present and to confirm the presentation by completing the form “[Confirmation of the presentation of the disposition](#)” (see homepage).

Please send the form to the Examinations Office: KW-GW-Pruefungsreferat@plus.ac.at

Registering your doctoral thesis:

Please complete the registration in the thesis programme (PAAV) (select title, main and secondary supervisor). The disposition and the supervisors' statements must be uploaded independently in the [PAAV](#) programme. Only when this has been done can you forward the registration of the dissertation.
