

Theories and Debates in Geography

Do we need a degrowth perspective to slow down global heating?

December 5, 12-14h

Kohei Saito

Why we need a degrowth economy

Online per Windows Teams: <https://tinyurl.com/dnjsvzru>

Kohei Saito is Associate Professor of Philosophy Tokyo at the University of Tokyo and author of the book: *Systemsturz. Der Sieg der Natur über den Kapitalismus* (dtv, 2023). This book surprisingly became a bestseller in Japan with over 500,000 copies sold.

December 19, 18-20h

Simon Pirani

How we can build a social and ecological energy system

Online per Windows Teams: <https://tinyurl.com/5n92e648>

onorary professor at the University of Durham. Simon Pirani is author of the book *Burning Up: A Global History of Fossil Fuel Consumption* (Pluto Press, 2018) and writes at peoplenature.org.

January 16, 18-20h

Elena Hofferberth

Planning beyond growth. The case for economic democracy within limits

Online per Windows Teams: <https://tinyurl.com/5be5jpsm>

Elena is a postdoctoral researcher at the University of Lausanne. In the project “CliMacro: Alternative Macro-Financial Frameworks for Climate-Just and Post-Growth Futures” she explores the macro-financial and political economy conditions for a post-growth economy. Elena holds a PhD in economics from the University of Leeds.
