

Meet our Alumni – Giulia Mazzeschi

Which career steps have you taken since graduating from EUS?

After my graduation in the Double Degree program with LUISS, I had the opportunity to take part in the organisation of the Italian G20 presidency of 2021 as Liaison Officer for the Italian Government. Following this remarkable experience, I started to work as a Public Affairs Specialist for Rete Ferroviaria Italiana, the Italian railways infrastructure manager.

How did the EUS Master influence your professional career?

The EUS Master allowed me to significantly

improve my skills by challenging myself with a different teaching method comprising, among others, different simulations and work groups with the other students. This programme can give you the right tools to gain confidence while facing the working world.

Which aspects of our interdisciplinary programme did you like most?

What I liked the most was the possibility of interacting with the professors and other students easily since the classes were never too crowded. This environment can give you the possibility to explore different perspectives and ideas in greater depth.

Which advice can you give future EUS alumni?

Don't miss the opportunity to take part in the Double Degree program with LUISS or Olomouc universities since it can be an enriching and unforgettable experience.
