

Meet our Alumni – Matthias Hitzler

Which career steps have you taken since graduating from EUS?

After completing the SCEUS-LUISS Double-Degree programme, I gained experience interning at the *Landeszentrale für politische Bildung BaWü*, which led to my current internship at the Austrian Mission to NATO. I also qualified as a mediator under Austrian Civil Law.

How did your EUS Master influence your professional career?

EUS was the key to entering a relevant and fascinating field, providing the analytical framework essential to my current role.

Which aspects did you like most in this interdisciplinary study programme?

Foremost, the programme offers high-quality teaching. And the small class sizes create a close-knit environment where, with some luck, like-minded individuals can form lasting friendships.

Which advice can you give future EUS alumni?

Do not feel intimidated by the achievements of others. It is natural to experience this in a highly competitive field, but we often forget that our individual paths provide us with unique skills and strengths.

And the demographic transition will take care of the rest.
