

International Institute for
Applied Systems Analysis

Young Scientists Summer Program

Join an international cohort of PhD researchers for three months of mentored research, interdisciplinary exchange, and professional development at IIASA.

iiasa.ac.at/yssp

Annually, from 1 June to 31 August, IIASA hosts up to 50 doctoral students from around the world in its Young Scientists Summer Program (YSSP).

If you are an advanced graduate student, take your research to the next level and apply to the YSSP to gain:

- **Academic mentorship:** Develop your project with guidance and feedback from IIASA researchers.
- **Interdisciplinary perspectives:** Exchange ideas with scientists working across disciplines on global challenges.
- **Research and professional development:** Build your knowledge and skills through the YSSP training program.
- **International connections:** Become part of a cohort of around 50 doctoral researchers and connect with the wider IIASA community.

“ It was great to work with experienced researchers at IIASA, it really benefitted my understanding of systems-oriented research tackling real-life global challenges.

Stefanie Klose, YSSP participant

To apply or for more information:

iiasa.ac.at/yssp

IIASA is an international research institute based near Vienna, Austria. A global leader in systems analysis, IIASA conducts policy-oriented multidisciplinary research into challenges that are too large or complex to be solved by a single country or discipline.
