Double Degree Salzburg-Olomouc

Students will spend their first year in Salzburg and their second year in Olomouc.

Programme in Salzburg

Students, who want to join and graduate within the DD-programme, have to be enrolled in EUS at Salzburg University. To be eligible for the Double Degree programme, they must apply in time and until the beginning of the second year have earned all their academic credits for their first and second semester in Salzburg and move to Olomouc for the second one, following courses there.
A group of students from each University can join the DD-Programme every year. The students do not have to pay extra fees for the Guest University.

The Deadline for applying for the DD-Programme at SCEUS will be made public by the SCEUS every year. Interested students are welcome to apply and will be informed if they are viable for a study place.

The candidates are nominated by the SCEUS to the Guest University.
As soon as study places in the Double-Degree Programme are confirmed, students are advised to apply for the Erasmus Programme (info at the International Office) – caution: Erasmus-application deadlines may differ.

Programme in Olomouc

Students will arrive at Olomouc at the beginning of the winter semester (September). The DD-Students have to fulfill administrative preconditions in accordance with the national law. They will be informed about the details in time by Palacky University.
Students will be enrolled as Erasmus(exchange)-students for their first semester – at the same time they also start their enrollment process to become a regular student at Palacky University in the following study year (which is precondition to be able to graduate in the respective year!). Students will be assisted in both processes.
Once enrolled, students will attend courses according to the requirements of the Palacky University as well as the EUS curriculum. Details are given in time. Also they are free to choose any additional classes and activities they are interested in as electives.
The master thesis has to be co-supervised by authorized Professors at both Universities.
The students graduate in EUS in Salzburg first. To receive the Degree of the Palacky University, the graduation documents have to be sent to Olomouc in time.
Any costs concerning the study visit (travel costs, accommodation, etc.) have to be covered by the students themselves – we advise do apply for an Erasmus scholarship to help do that.
